Definitions of the statistical categories used in this questionnaire can be found in the COUNTER Code of Practice, April 2005 (http://www.projectcounter.org/code_practice.html) and in *Information Services and Use: Metrics & statistics for libraries and information providers--Data Dictionary*, NISO Z39.7-2004 (<http://www.niso.org/emetrics/current/index.html>).

Please read all instructions carefully before you answer the questionnaire. Make sure your responses are as complete and accurate as possible. Give estimates when you must, but please do not make wild guesses. Use footnotes to expand upon or clarify your responses.

All questions assume a **fiscal year ending June 30, 2007**. If your library's fiscal year is different, please use footnotes to explain.

If your library does not perform a given function or had no activity for this function or if the appropriate answer is zero or none, use **0**. If an exact figure is unavailable, check NA/UA.

Please do not use decimals. All figures should be rounded to the nearest whole number.

4. **Number of virtual reference transactions.** (4) _____

Virtual reference transactions are conducted via email, a library's website, or other network communications mechanisms designed to support electronic reference. A virtual reference transaction *must* include a question *either* received electronically (e.g., via e-mail, WWW form, etc.) *or* responded to electronically. A transaction that is both received and responded to electronically is counted as *one* transaction. Exclude phone and fax traffic unless either the question or answer transaction occurs via the manner described above. Include counts accrued from participation in any local and national projects, such as DigiRef and the Library of Congress's CDRS (Collaborative Digital Reference Service).

Deleted: s

A reference transaction is an information contact, which involves the knowledge, use, recommendations, interpretation, or instruction in the use of one or more information sources by any member of the library staff (e.g., circulation, technical or reference services).

[This number is a subset of reference transactions reported in Q31, in the ARL Statistics.](#)

5. **Does your library offer federated searching across networked electronic resources?** (5) _____ Yes _____ No

Networked electronic resources may include any information resource, such as databases, journals, e-books, reference materials, and non-textual resources that are provided to the library's users through licensing and contractual agreements. Include electronic resources that institutions mount locally.

6. **Number of sessions (logins) to databases or services.** (6) _____

6.a. **Number of resources for which you are reporting.** (6.a) _____

A session or login is one cycle of user activities that typically starts when a user connects to an electronic resource and ends with explicit termination of activities (by leaving through logout or exit) or implicit termination (time out due to user inactivity). Report here those figures that you derive from Database Report 1 and Database Report 3 in the COUNTER Code of Practice. In a footnote, please include the types of resources reported in 6a.

7. **Number of searches (queries) in databases or services.** (7) _____

7.a. **Number of resources for which you are reporting.** (7.a) _____

A search is intended to represent a unique intellectual inquiry. Typically, a search is recorded each time a search request is sent/submitted to the server. Report here those figures that you derive from Database Report 1 and Database Report 3 in the COUNTER Code of Practice. In a footnote, please include the types of resources reported in 7a.

8. **Number of successful full-text article requests.** (8) _____

8.a. **Number of resources for which you are reporting.** (8.a) _____

Items reported should include only full-text articles as defined in the COUNTER Code of Practice. Report here those figures that you derive from Journal Report 1 in the COUNTER Code of Practice. In a footnote, please include the types of resources reported in 8a.

9. Number of virtual visits.

9.a. Number of virtual visits to library's website. (9.a) _____

9.b. Number of virtual visits to library's catalog. (9.b) _____

9.c. Excludes virtual visits from inside the library? (9.c) ____Yes ____No

Virtual visits include a user's request of the library web site or catalog from outside the library building excluding the number of pages or gratuitous elements (images, style sheets) viewed. Exclude, if possible, virtual visits from within the library, from robot or spider crawls and from page reloads.

A visit is usually determined by a user's IP address, which can be misleading due to Internet Service Providers (ISPs) and Firewalls or Proxy Servers. Thus, this measure is actually an estimate of the visits.

13. Volumes Held Collectively [i.e., Withdrawn]

(13)

The defining criterion for this number is that the library formerly devoted financial resources for the purchase of these items and is now taking responsibility for their availability through participation in a cooperative that supports shared ownership. The library may demonstrate commitment to shared ownership through a shared storage facility, or similar collaborative arrangements, by supporting a consortium financially through a legally binding arrangement. Report here volumes originally held that were withdrawn from the local collection beginning with fiscal year 2003-04. Note that this is not the number of volumes held in a shared storage facility but literally volumes withdrawn from your collection.
