Convened by Stella Bentley, University of Kansas, Chair

The Metropolitan Group, a fund development consulting firm, is working with the Diversity Program to design and manage the Initiative to Recruit a Diverse Workforce's campaign. Metropolitan Group consultants will lead a working session with the Diversity Committee, to identify program needs, campaign strategy, and a plan for action. ARL Libraries that are participating in the Initiative are encouraged to attend this meeting, to contribute ideas and actively participate in the program development stage.

The working group session will be the majority of the meeting, with a brief update on Diversity Program activities and new ventures.
