

Presidential Appointments

High Performance Computing and Communications, Information Technology, and the Next Generation Internet: President Clinton announced his intentions to appoint 19 members to an advisory committee to provide guidance on all areas of high performance computing, communications and information technologies. At its first meeting, expected in late February, the Advisory Committee will be asked to provide guidance on the Next Generation Internet Initiative announced by the President last October.

Members of the committee include: University of Washington Director of Health Sciences Libraries and Information Center **Sherrilynne S. Fuller**; Simmons College Professor in the Graduate School of Library and Information Science **Ching-Chih Chen**; and MCI Communications Senior Vice President of Internet Architecture and Engineering **Vinton Cerf**.
