

SCPJ Project

to promote awareness of Japanese scholarly societies toward open access

- About SCPJ
 - “SCPJ” (Society Copyright Policies in Japan) is a copyright policies database of Japanese scholarly societies modeled after SHERPA/RoMEO
 - Out of 1,815 policy data, 78% are in the new fifth “gray” (i.e. no definite policy) category
- Collaborative Project with Societies
 1. Open access campaign through our website
 2. Use of “SPARC Japan Partners Catalog”
 3. Promotion visit to societies’ meetings
- May I ask ... ?
 - How do you check the open access policies not in SHERPA/RoMEO to submit research papers to your repository?
 - How do you share these policies with other universities/institutions?
