

UCSD Library

- Library was a central partner in 10+ years of campus planning around research infrastructure support.
 - Compute, networking, data centers, storage, ***DATA CURATION***
 - Led to creation of Research Data Curation Program in Library.
- Re-organization of Library, both staff and facilities, from multiple libraries to a single organizational unit, focused around services
- Creation of new facilities: GIS Lab, Digital Media Lab, Teaching and Learning Commons, leading to complete space renovation
